

GANESH CHAUDAKI

Full Stack Web Developer | AI & SaaS Products

Mumbai 400095, India | +91 9820307256 | chaudaki08@gmail.com

linkedin.com/in/ganesh-chaudaki | github.com/chaudaki08-beast | portfolio-red-five-42.vercel.app

PROFESSIONAL SUMMARY

Full-stack developer building scalable web applications, API-driven products, and AI-powered SaaS. Experienced in JavaScript, React.js, PHP, Python, and MySQL/PostgreSQL, with specialized expertise in AI/LLM integration (OpenAI, Gemini, Claude), NFC-powered solutions, and end-to-end product development in Agile teams. Recently shipped an AI vision monitoring platform, an ISP operations SaaS, and multiple GPT-powered assistants.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Tailwind CSS, Responsive Design, UI/UX Implementation
- **Backend:** PHP, Node.js, Python (FastAPI, Flask), RESTful API Design & Integration
- **Databases:** MySQL, PostgreSQL, Firebase, SQLite, Supabase
- **AI / LLM:** OpenAI API, Google Gemini (incl. Vision), Claude, Prompt Engineering, AI-assisted Application Development
- **Tools & Platforms:** Git, GitHub, Postman, WordPress, Vercel, cPanel, C++, Java, .NET/WPF (desktop)

WORK EXPERIENCE

Software Developer | CGS Infotech Solutions

Nov 2023 - Present | Mumbai (Hybrid)

- Design and develop client-facing web applications using React.js and PHP for high-traffic environments.
- Lead the design and integration of RESTful APIs and third-party services to improve platform reliability.
- Developed 4+ NFC-powered products including review systems, booking tools, and automated chatbots.
- Collaborate in Agile sprints, performing code reviews and maintaining rigorous technical documentation.

Web Developer | My Country Mobile

Apr 2023 - Oct 2023 | Mumbai (On-site)

- Spearheaded front-end development for customer-facing telecom and VoIP portals used by thousands of users.
- Built and maintained complex API integrations supporting real-time communication and VoIP platform stability.
- Optimized front-end performance and page load times, contributing to measurable gains in user engagement.

Web Developer | Anush Enterprises

Jan 2023 - Mar 2023 | Mumbai (On-site)

- Developed responsive business websites and administrative modules using JavaScript and HTML5.
- Managed end-to-end project lifecycles from requirements gathering to final deployment.

SELECTED PROJECTS

- **HotelEye AI - AI Vision Monitoring:** Python/FastAPI platform that monitors hotel CCTV feeds with Google Gemini Vision and OpenCV, sending real-time WhatsApp and email alerts for operational issues. Privacy-first: frames analyzed, never stored.
- **ISP & Cable Operator Management System:** Enterprise SaaS covering CRM, recurring billing, complaint SLAs, technician dispatch, and inventory with role-based access (PHP, MySQL, REST APIs; newer build on Next.js + Supabase).

- **Tax GPT & SureGain GPT:** AI-powered conversational tools using the OpenAI API and custom React.js interfaces to provide real-time financial guidance, with OAuth login, guest mode, and conversion funnel.
- **NFC Review & Booking Suite:** JavaScript-based, NFC-triggered products for seamless, contactless customer interactions.
- **Expense Tracker App:** Full-stack finance application featuring real-time data sync via Firebase with charts and monthly reports.
- **Custom CMS Platforms:** Multiple custom CMS solutions using PHP, MySQL, and JavaScript for streamlined content and user management.

EDUCATION & CERTIFICATIONS

- Master of Computer Applications (MCA), Mumbai University.
- Data Analytics Job Simulation - Deloitte AU (Forage), Jan 2026.
- Salesforce Trailblazer - Salesforce, Jun 2020.
